Board of Directors, Reunion Ranch WCID

% Willatt & Flickinger, PLLC
Attn: Board Secretary
12912 Hill Country Blvd, Suite F-232
Austin, TX 78737

Dear Members of the Board,

Please accept this letter as my expression of interest for the open position on the Reunion Ranch WCID Board of Directors. I wish to serve on the WCID board because I believe it is the civic responsibility of residents to actively participate in the systems and entities that underpin their community, especially right now during this critical period of transition out of development. Also, with regards to the recent focus on wastewater, I am hoping to help the district address the issues my neighbors have experienced, as well as improving overall communication between residents and the district. With clearer communication and more informed residents, I hope we can work together to provide the top-notch, environmentally responsible services and land usage that Reunion Ranch deserves.

With my 20 years of experience in Austin's high-paced technology sector, I bring skills that I believe would be a positive contribution to the board, specifically program management, communication, and process improvement. As an engineer, I am an enthusiastic problem-solver and motivated learner when it comes to new technical knowledge.

I am passionate about serving the Reunion Ranch neighborhood. Since moving here in 2014, I have organized many neighborhood-wide events with the RR Social Committee. I also admin and moderate our online forums on Facebook and Nextdoor. In 2017-18, I served on the RR HOA Advisory Committee to improve communications between residents and the developer-run HOA board. In the past 6+ years, I have volunteered hundreds of my own hours for this neighborhood, and more importantly I have built genuine relationships and trust with many neighbors through my engagement with them.

As part of my continued learning I have reviewed the Texas Water Code as well as all of the available RR WCID documents including past meeting agenda and minutes dating back to 2005. Even if I am not selected for a board position at this time, I will continue to invest in building my knowledge of Texas water/utility districts in hopes of serving in the future.

Thank you for your consideration.

Sincerely,

Terri Purdy

TERRI SOHN PURDY

terri.sohn@gmail.com — 512-680-4694

Passionate, hard-working technology professional seeking the best way to apply my skills and experience to better the world. Successful track record in program management, process improvement, and technology roles. Meticulous communicator, committed bridge builder, and relentless advocate for responsible progress and positive change.

Work Experience

Product Implementation Manager

AMD - Austin, TX - April 2017 to November 2017

- Defined and managed Product Engineering/Quality deliverables/schedules for new product introduction (NPI) of next generation embedded product.
- Led pre-silicon planning, engineering samples execution, and high-volume manufacturing readiness.
- Worked with Asia Engineering and Operations counterparts, and other global organizations such as Design, Supply Chain, Business and Customer Engineering.

Project Manager

Wesco Aircraft - Austin, TX - January 2016 to October 2016

- Coordinated and tracked deliverables for replacing legacy IT systems with new enterprise systems for WescoAir's chemical supply distribution hubs and warehouses.

Manager, Software Development and Software Quality

AMD - Austin, TX - June 2010 to August 2011

- Managed team of 8-10 software developers and quality engineers (+20 contractors). Technical resource as needed for critical IT projects, covering roles from QA lead to dev lead to business analyst.

Manager, Corporate Process Improvement

AMD - Austin, TX - June 2008 to June 2010

- Resource manager for 6-8 process improvement agents for AMD's Product Development domain.
- Established governance for improvement initiatives across AMD's Engineering organizations - including monthly executive reviews and web-based dashboards for metrics and status reporting.
- Hosted Engineering/IT process improvement workshops, from high-level strategy/portfolio alignment to daily operational changes across organizations.
- Coached and mentored engineers and managers company-wide.

Program Manager, Manufacturing Systems & Technology

AMD - Austin, TX - January 2006 to June 2008

- Project lead for global cross-functional team to implement software quality framework, including a global lifecycle, metrics, documentation, feedback surveys, and best practices. Trained 300+ engineers in Austin, Germany, and Singapore offices on new framework.

- Facilitated 17 process improvement workshops in Austin, Germany, and Singapore in 1 year, resulting in measurable reduction in software bugs, lead time, and engineering effort required per customer feature. Implemented automated metrics dashboard for management and team visibility.
- Planned and executed organizational alignment sessions for defining strategic goals, prioritizing projects, and identifying key metrics.

Software Engineer, Manufacturing Systems & Technology

AMD - Austin, TX - May 2000 to January 2006

- Developed, tested, and deployed applications for silicon manufacturing plants, specifically for Equipment Integration (EI). Implemented APIs for product integration for both custom and 3rd party applications.
- Managed Austin & Germany demo systems for high-level executives and industry leaders to observe fully automated material handling and equipment operation capabilities.
- Created and delivered technical training and documentation to Germany factory personnel.

Software Engineer, Equipment Interfaces

MOTOROLA/FREESCALE/NXP - Austin, TX - January 1998 to May 2000

- Upgraded Equipment Interface applications for Computer Integrated Manufacturing (CIM) framework for Motorola's semiconductor fabrication and device testing facilities. Developed web-based reticle inspection data collection and visualization application.
- Developed equipment interface to device test systems for automated event/data collection.
- Created database and web-based app to track final test systems and programs available worldwide.

Education

Master of Science, Software Engineering

University of Texas at Austin, 2005

Bachelor of Science, Electrical & Computer Engineering

University of Illinois at Champaign-Urbana, 1998

Groups

Executive Board, Sycamore Springs Elementary School PTA

August 2017 to Present

- VP for Communications (2020-2021 school year) - responsible for publishing content on behalf of the PTA organization. This includes creating/updating the website, monthly newsletters, weekly e-mails, social media accounts, and print media.
- VP for Enrichments (2019-20 school year) - delivered programs that supplement school curriculum at no cost or burden to school staff/faculty, such as: Art Appreciation, Outdoor Learning, Math Stars, PTA Reflections, and more.
- Book Fair Coordinator raising \$10K per year for the school Center for Learning & Innovation (aka library) for new books and STEM supplies. 60 volunteer hours/semester to support CL&I staff.
- Outdoor Learning Environment Chair - supervised student-led project to install 6 raised garden beds for school use. 30 volunteer hours/semester for maintaining the School Garden and mentoring the student-led Garden Club.

Chairperson, Mercy & Justice Team for First United Methodist Church of Austin

January 2015 to Present

- Organize quarterly meetings.
- Provide support to staff/clergy for organizing, promoting, and executing church service events, social justice efforts, and mission work.
- Assist other church groups (children, youth, Sunday school classes, UMW, and others) with opportunities to serve in the community and participate in social justice learning and advocacy.

Early Response Team, Rio Texas Conference of UMC

January 2017 to Present

- Organize ERT members of First UMC Austin for local deployments to provide initial site assessment and cleanup after natural disasters. Recent deployments include: Hurricane Harvey (Coastal Bend and La Grange), Highland Lakes flooding, Dripping Springs flooding (self-deployment).

Volunteer Driver and Corporate Coordinator, Meals On Wheels of Central Texas

June 2008 to Present

- Weekly delivery of hot meals to deserving clients through the Meals On Wheels organization.
- From 2009-2011, coordinated AMD's team of 70+ volunteers to support 4 MOW delivery routes per week.

Family Sponsor, Generation SERVE (formerly Little Helping Hands)

2016 to Present

- Provide financial support for Generation SERVE, which provides opportunities for community service to children and youth of the Austin metro area and their families.
- Participate in monthly service projects with our children, e.g. maintaining community gardens, tagging trees for TreeFolks, sorting and shelving donations at food pantries, doing arts and crafts with residents of assisted living/nursing homes, assembling care packs for FrontSteps/ARCH, making cards for patients at Dell Children's, and much more.
