ANNUAL FILING AFFIDAVIT

ANNUAL FILING AFFIDAVIT

STATE OF TEXAS COUNTY OF HAYS
I, Dennis Daniel of the (Name of Duly Authorized District Representative)
REUNION RANCH WATER CONTROL AND IMPROVEMENT DISTRICT (Name of District)
hereby swear, or affirm, that the District above has reviewed and approved at a meeting of the District's Board of Directors on the 18th day of January, 2022, its annual audit report for the fiscal year ended September 30, 2021 and that copies of the annual audit report have been filed in the District's office, located at:
12912 Hill Country Blvd Suite F-232 Austin. Texas 78738 (Address of District's Office)
The annual filing affidavit and the attached copy of the audit report are being submitted to the Texas Commission on Environmental Quality in satisfaction of all annual filing requirements within Section 49.194 of the Texas Water Code and to the Texas Compttoller of Public Accounts in satisfaction of the annual filing requirements of Section 140.008 of the Texas Local Government Code. Date: By: (Signature of District Representative)
Sworn to and subscribed to before me this 18th day of January, 3002.
JENIFFER CONCIENNE My Notary ID # 6694400 Expires September 21, 2022 (Signature of Notary)
My Commission Expires On: Sept. 31, 3033. Notary Public in the State of Texas

Form TCEQ-0723 (Revised 10/2003)

Independent Auditors' Report

To the Board of Directors of Reunion Ranch Water Control and Improvement District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Reunion Ranch Water Control and Improvement District (the "District"), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages MDA-1 through MDA-7 and FS-17, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Texas supplemental information and other supplemental information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Texas supplemental information listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas supplemental information listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other supplemental information listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Austin, Texas January 18, 2022

MANAGEMENT'S DISCUSSION AND ANALYSIS

In accordance with Governmental Accounting Standards Board Statement No. 34 ("GASB 34"), the management of Reunion Ranch Water Control and Improvement District (the "District") offers the following discussion and analysis to provide an overview of the District's financial activities for the year ended September 30, 2021. Since this information is designed to focus on the current year's activities, resulting changes, and currently known facts, it should be read in conjunction with the District's basic financial statements that follow.

FINANCIAL HIGHLIGHTS

- General Fund: At the end of the current fiscal year, the fund balance was \$707,216, a decrease of \$253,355 from the previous fiscal year. General Fund revenues increased from \$1,276,136 in the previous fiscal year to \$1,401,509 in the current fiscal year primarily due to additional service fee revenues generated from new connections within the District. General Fund expenditures increased from \$1,338,156 in the previous fiscal year to \$1,654,864 in the current fiscal year primarily due to wastewater treatment plant expenditures.
- Debt Service Fund: During fiscal year 2021, the District issued \$7,050,000 in Unlimited Tax Bonds, Series 2020. As a result, fund balance restricted for debt service increased from \$999,046 as of September 30, 2020 to \$1,146,055 as of September 30, 2021. Debt Service Fund revenues totaled \$1,680,383 in the current fiscal year while expenditures totaled \$1,533,374.
- Capital Projects Fund: Fund balance restricted for capital projects increased from \$448,822 as of September 30, 2020 to \$2,263,913 as of September 30, 2021. In conjunction with the issuance of \$7,050,000 in Unlimited Tax Bonds, Series 2020 and release of surplus bond proceeds, the District expended \$4,459,341 in capital outlay (related to construction of the water, wastewater and drainage system), \$218,917 in reimbursement for developer interest and \$510,431 in bond issuance costs during the current fiscal year. Capital Projects Fund revenues (including net other financing sources) totaled \$7,003,780 in the current fiscal year.
- Governmental Activities: On a government-wide basis for governmental activities, the District had expenses net of revenues of \$568,832 during the current fiscal year. Net position decreased from a deficit balance of \$1,669,231 at September 30, 2020 to a deficit balance of \$2,238,063 at September 30, 2021.

OVERVIEW OF THE DISTRICT

The District was duly created by order of the Texas Commission on Environmental Quality (the "Commission") dated August 15, 2005 as a conservation and reclamation district created under and essentially to accomplish the purposes of Section 59, Article XVI of the Texas Constitution.

USING THIS ANNUAL REPORT

This annual report consists of six parts:

- 1. Management's Discussion and Analysis (this section)
- 2. Basic Financial Statements
- 3. Notes to the Basic Financial Statements
- 4. Required Supplementary Information
- 5. Texas Supplemental Information (required by the Texas Commission on Environmental Quality (the TSI section))
- 6. Other Supplemental Information (the OSI section)

For purposes of GASB 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the "Governmental Funds Total" column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Position and the Statement of Activities.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Statement of Net Position and Governmental Funds Balance Sheet includes a column (titled "Governmental Funds Total") that represents a balance sheet prepared using the modified accrual basis of accounting. This method measures cash and all other financial assets that can be readily converted to cash. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the District's net position will indicate financial health.

The Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances includes a column (titled "Governmental Funds Total") that derives the change in fund balances resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the information presented in the Statement of Net Position and Governmental Funds Balance Sheet and the Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances.

The Required Supplementary Information presents a comparison statement between the District's adopted budget and its actual results for the General Fund.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Statement of Net Position:

The following table reflects the condensed Statement of Net Position:

Summary Statement of Net Position

	Govern Activ	Change Increase	
	2021	2020	(Decrease)
Current and other assets	\$ 4,843,382	\$ 2,919,611	\$ 1,923,771
Capital and non-current assets	21,788,284_	17,796,225	3,992,059
Total Assets	26,631,666	20,715,836	5,915,830
Current liabilities	1,295,426	1,126,430	168,996
Long-term liabilities	27,574,303	21,258,637	6,315,666
Total Liabilities	28,869,729	22,385,067	6,484,662
Net investment in capital assets	(3,901,131)	(3,465,243)	(435,888)
Restricted for debt service	1,035,056	913,182	121,874
Unrestricted	628,012	882,830	(254,818)
Total Net Position	\$ (2,238,063)	\$ (1,669,231)	\$ (568,832)

The District's net position decreased by \$568,832 to a deficit balance of \$2,238,063 from the previous year's deficit balance of \$1,669,231. The decrease is primarily a result of the District's bond issuance in December 2020 totaling \$7,050,000, for which \$7,050,000 in principal remains outstanding at September 30, 2021.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (continued) -

Revenues and Expenses:

Summary Statement of Activities

	Govern Activ	Change Increase	
	2021	2020	(Decrease)
Property taxes, including penalties	\$ 2,019,097	\$ 1,512,428	\$ 506,669
Service account revenues, including penalties	990,386	884,310	106,076
Tap connection/inspection fees	55,800	122,500	(66,700)
Interest and other revenue	9,068	25,387	(16,319)
Total Revenues	3,074,351	2,544,625	529,726
Water reservation/monthly charges/purchases	356,180	341,137	15,043
District operations	1,056,902	698,834	358,068
Professional fees	193,522	166,436	27,086
Other	279,516	302,236	(22,720)
Debt service	1,276,659	1,065,213	211,446
Depreciation/amortization	480,404	374,915	105,489
Total Expenses	3,643,183	2,948,771	694,412
Change in Net Position	(568,832)	(404,146)	(164,686)
Beginning Net Position	(1,669,231)	(1,265,085)	(404,146)
Ending Net Position	\$ (2,238,063)	\$ (1,669,231)	\$ (568,832)

Revenues were \$3,074,351 for the fiscal year ended September 30, 2021, while expenses were \$3,643,183. Net position decreased \$568,832 for the fiscal year ended September 30, 2021.

Property tax revenues in the current fiscal year totaled \$2,019,097, up from \$1,512,428 during fiscal year 2020. Property tax revenue is derived from taxes being levied based upon the assessed value of real and personal property within the District. Property taxes levied for the 2020 tax year (September 30, 2021 fiscal year) were based upon a current assessed value of \$230,190,477 and a tax rate of \$0.875 per \$100 of assessed valuation. Property taxes levied for the 2019 tax year (September 30, 2020 fiscal year) were based upon a current assessed value of \$171,837,725 and a tax rate of \$0.875 per \$100 of assessed valuation.

The tax rate levied is determined after the District's Board of Directors (the "Board") reviews the General Fund budget requirements and the Debt Service Fund debt service obligations of the District. The District's primary revenue sources during fiscal year 2021 were property taxes and service account revenues.

ANALYSIS OF GOVERNMENTAL FUNDS

Governmental Funds by Year

	2021	2020
Cash and cash equivalents	\$ 4,356,202	\$ 2,456,444
Receivables	180,808	250,094
Prepaid expenditures	2,165	55,511
Total Assets	\$ 4,539,175	\$ 2,762,049
Accounts payable and other	\$ 421,973	\$ 345,392
Total Liabilities	421,973	345,392
Deferred Inflows of Resources	18	8,218
Nonspendable	2,165	1,873
Restricted	3,409,968	1,447,868
Unassigned	705,051	958,698
Total Fund Balances	4,117,184	2,408,439
Total Liabilities, Deferred Inflows		
of Resources and Fund Balances	\$ 4,539,175	\$ 2,762,049

As of September 30, 2021, the District's governmental funds reflected a fund balance of \$4,117,184. For the year ended September 30, 2021, fund balances increased by \$147,009 and \$1,815,091 in the Debt Service Fund and Capital Projects Fund, respectively, and decreased \$253,355 in the General Fund.

CAPITAL ASSETS

At September 30, 2021, the District's governmental activities have invested \$21,788,284 in water, wastewater, and drainage system infrastructure. The detail is reflected in the following schedule:

Summary of Capital Assets, net

	9/30/2021	9/30/2020
Water/Wastewater/Drainage Facilities	\$ 23,249,245	\$ 18,789,904
Less: Accumulated Depreciation	(1,460,961)	(993,679)
Total Net Capital Assets	\$ 21,788,284	\$ 17,796,225

More detailed information about the District's capital assets is presented in the *Notes to the Basic Financial Statements*.

LONG-TERM DEBT

The District has the following balances outstanding on unlimited tax bonds:

		Bonds
	Payable	
Series 2015	\$	3,150,000
Series 2016		3,320,000
Series 2017		5,315,000
Series 2018		4,805,000
Series 2019		4,685,000
Series 2020	_	7,050,000
Total		28,325,000

The District owes \$28.325 million to bond holders. During the year, the District paid interest of \$848,971 on outstanding principal. The ratio of the District's long-term debt to total 2020 taxable assessed valuation (\$230,190,477 is 12.3%. The District's estimated population, as provided by the District as of November 17, 2020, is 1,488. More detailed information about the District's long-term debt is presented in the *Notes to the Basic Financial Statements*.

BUDGETARY HIGHLIGHTS

The General Fund pays for daily operating expenditures. The Board adopted a budget on September 15, 2020 for the 2021 fiscal year. The 2021 fiscal year budget included projected revenues of \$1,144,970 as compared to expenditures of \$1,042,438. When comparing actual results to budget, the District had a negative variance of \$355,887 primarily due to increased wastewater plant expenditures. More detailed information about the District's budgetary comparison is presented in the *Required Supplementary Information*.

CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS

The net property tax assessed value for 2021 (September 30, 2022 fiscal year) is approximately \$290 million. The fiscal year 2022 tax rate is \$0.825 on each \$100 of taxable value. Approximately 33% of the property tax will fund general operating expenses and approximately 67% of the property tax will be set aside for debt service.

The adopted budget for fiscal year 2022 projects an operating fund balance increase of \$155,613. Compared to the fiscal year 2021 budget, revenues are expected to increase by approximately \$502,000 and expenditures are expected to increase by approximately \$449,000.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District in care of Willatt & Flickinger PLLC, 12912 Hill Country Blvd., Suite F-232, Austin, TX 78738.

BASIC FINANCIAL STATEMENTS

NOTES TO THE BASIC FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of Reunion Ranch Water Control and Improvement District (the "District") relating to the funds included in the accompanying financial statements conform to generally accepted accounting principles ("GAAP") as applied to governmental entities. GAAP for local governments include those principles prescribed by the Governmental Accounting Standards Board ("GASB"), which constitutes the primary source of GAAP for governmental units. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced.

Reporting Entity - The District was duly created by order of the Texas Commission on Environmental Quality (the "Commission") dated August 15, 2005 as a conservation and reclamation district created under and essentially to accomplish the purposes of Section 59, Article XVI of the Texas Constitution. The reporting entity of the District encompasses those activities and functions over which the District's elected officials exercise significant oversight or control. The District is governed by a five member Board of Directors (the "Board") which has been elected by District residents or appointed by the Board. The District is not included in any other governmental "reporting entity" as defined by GASB since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. In addition, there are no component units included in the District's reporting entity.

Basis of Presentation - Government-Wide and Fund Financial Statements - The basic financial statements are prepared in conformity with GASB Statement No. 34, and include a column for government-wide (based upon the District as a whole) and fund financial statement presentations. GASB Statement No. 34 also requires as supplementary information the Management's Discussion and Analysis, which includes an analytical overview of the District's financial activities. In addition, a budgetary comparison statement is presented that compares the adopted General Fund budget with actual results.

• Government-Wide Financial Statements: The District's Statement of Net Position includes both non-current assets and non-current liabilities of the District, which were previously recorded in the General Fixed Assets Account Group and the General Long-Term Debt Account Group. In addition, the government-wide Statement of Activities column reflects depreciation expense on the District's capital assets, including infrastructure.

The government-wide focus is more on the sustainability of the District as an entity and the change in aggregate financial position resulting from financial activities of the fiscal period. The focus of the fund financial statements is on the individual funds of the governmental categories. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

• Fund Financial Statements: Fund-based financial statement columns are provided for governmental funds. GASB Statement No. 34 sets forth minimum criteria (percentage of assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues or expenditures of either fund category) for the determination of major funds.

Governmental Fund Types - The accounts of the District are organized and operated on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a self-balancing set of accounts that comprise its assets and deferred outflows of resources, liabilities and deferred inflows of resources, fund balances, revenues and expenditures. The various funds are grouped by category and type in the financial statements. The District maintains the following fund types:

- General Fund The General Fund accounts for financial resources in use for general types of operations which are not encompassed within other funds. This fund is established to account for resources devoted to financing the general services that the District provides for its residents. Tax revenues and other sources of revenue used to finance the fundamental operations of the District are included in this fund.
- Debt Service Fund The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.
- Capital Projects Fund The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Non-Current Governmental Assets and Liabilities - GASB Statement No. 34 eliminates the presentation of account groups, but provides for these records to be maintained and incorporates the information into the government-wide financial statement column in the Statement of Net Position.

Basis of Accounting

Governmental Funds

• Government-Wide Statements - The government-wide financial statement column is reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

Governmental Funds (continued) -

• Fund Financial Statements - The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in the fund balances. Governmental funds are accounted for on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual (i.e., both measurable and available).

"Measurable" means that the amount of the transaction can be determined and "available" means the amount of the transaction is collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Expenditures, if measurable, are generally recognized on the accrual basis of accounting when the related fund liability is incurred. Exceptions to this general rule include the unmatured principal and interest on general obligation long-term debt which is recognized when due. This exception is in conformity with GAAP.

Property tax revenues are recognized when they become available. In this case, available means when due, or past due and receivable within the current period and collected within the current period or soon enough thereafter to be used to pay liabilities of the current period. Such time thereafter shall not exceed 60 days. Tax collections expected to be received subsequent to the 60-day availability period are reported as deferred inflows of resources. The District has made an accrual for tax collections received 60 days subsequent to year end for the year ended September 30, 2021. All other revenues of the District are recorded on the accrual basis in all funds.

The District reports deferred inflows of resources on its balance sheet. Deferred inflows arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when revenue recognition criteria are met, the balance for deferred inflows is removed from the balance sheet and revenue is recognized.

Budgets and Budgetary Accounting - A budget was adopted on September 15, 2020, for the General Fund on a basis consistent with GAAP. The District's Board utilizes the budget as a management tool for planning and cost control purposes. All annual appropriations lapse at fiscal year-end. The budget was not amended during the fiscal year.

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

Accounting Estimates - The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents - Cash and cash equivalents includes cash on deposit as well as investments with maturities of three months or less. The investments, consisting of obligations in the State Treasurer's investment pool, are recorded at amortized cost.

Accounts Receivable - The District provides for uncollectible accounts receivable using the allowance method of accounting for bad debts. Under this method of accounting, a provision for uncollectible accounts is charged to earnings. The allowance account is increased or decreased based on past collection history and management's evaluation of accounts receivable. All amounts considered uncollectible are charged against the allowance account, and recoveries of previously charged off accounts are added to the allowance. The District believes all accounts were collectible at September 30, 2021.

Prepaid Expenditures - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenditures in both the government-wide and fund financial statements. Prepaid expenditures shall be charged to expenditures when consumed.

Interfund Transactions - Transfers from one fund to another fund are reported as interfund receivables and payables if there is intent to repay that amount and if the debtor fund has the ability to repay the advance on a timely basis. Operating transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Capital Assets - Capital assets are reported in the government-wide column in the Statement of Net Position. Public domain ("infrastructure") capital assets, including water, wastewater and drainage facilities, are capitalized. Items purchased or acquired are reported at historical cost or estimated historical cost. Contributed fixed assets are recorded as capital assets at their estimated acquisition value at the time received.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset	Years		
Water, wastewater, and drainage facilities	50		

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

Long-Term Debt - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the government-wide Statement of Net Position. Bond premiums and original issue discounts are deferred over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond insurance costs are reported as assets and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures in both the government-wide and the fund financial statements in accordance with GASB Statement No. 65.

Ad Valorem Property Taxes - Property taxes, penalties, and interest are reported as revenue in the fiscal year in which they become available to finance expenditures of the District. Allowances for uncollectible property taxes within the General Fund and Debt Service Fund are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Fund Equity - The District complies with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. See Note 10 for additional information on those fund balance classifications.

Deferred Outflows and Deferred Inflows of Resources - The District complies with GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

1. SIGNIFICANT ACCOUNTING POLICIES (continued) -

Fair Value Measurements - The District complies with GASB Statement No. 72, Fair Value Measurement and Application, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

- Market approach uses prices generated by market transactions involving identical or comparable assets or liabilities
- Cost approach uses the amount that currently would be required to replace the service capacity of an asset (replacement cost)
- Income approach uses valuation techniques to convert future amounts to present amounts based on current market expectations

Recently Issued Accounting Pronouncements - In June 2017, GASB issued GASB Statement No. 87, Leases, effective for fiscal years beginning after June 15, 2021. The objective of GASB Statement No. 87 is to improve accounting and financial reporting for leases by governments by requiring recognition of certain lease assets and liabilities that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB Statement No. 87 establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB Statement No. 87, a lessee is required to recognize a lease liability and an intangible right-to-use asset, and a lessor is required to recognize a lease receivable and deferred inflow of resources. Management is evaluating the effects that the full implementation of GASB Statement No. 87 will have on its financial statements for the year ended September 30, 2022.

2. RECONCILIATION OF THE GOVERNMENTAL FUNDS

Adjustments to convert the Governmental Funds Balance Sheet to the Statement of Net Position are as follows:

Fund balances - total governmental funds			\$	4,117,184
Capital assets used in governmental activities are not				
financial resources and, therefore, are not reported				
in the governmental funds:				
Capital assets	\$	23,249,245		
Less: Accumulated depreciation		(1,460,961)		21,788,284
Prepaid costs				310,975
Revenue is recognized when earned in the government-wide				
statements, regardless of availability. The governmental fund				
reports deferred inflows of resources for revenues earned				
but not available.				18
Long-term liabilities are not due and payable in the current				
period and, therefore, are not reported in the governmental funds:

3. CASH AND CASH EQUIVALENTS

The investment policies of the District are governed by Section 2256 of the Texas Government Code (the "Public Funds Investment Act") and an adopted District investment policy that includes depository contract provisions and custodial contract provisions. Major provisions of the District's investment policy, which complies with the Public Funds Investment Act, include: depositories must be Federal Deposit Insurance Corporation ("FDIC") insured Texas banking institutions; depositories must fully insure or collateralize all demand and time deposits; and securities collateralizing time deposits must be held by independent third party trustees.

<u>Cash</u> - At September 30, 2021, the carrying amount of the District's deposits was \$158,050 and the bank balance was \$158,695. The bank balance was covered by FDIC insurance and other pledged collateral.

Cash Equivalents -

Interest Rate Risk - In accordance with its investment policy, the District manages its exposure to declines in fair values through investment diversification and limiting investments as follows:

- Money market mutual funds are required to have weighted average maturities of 90 days or fewer; and
- Other mutual fund investments are required to have weighted average maturities of less than two years.

Credit Risk - The District's investment policy requires the application of the prudent-person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, and considering the probable safety of their capital as well as the probable income to be derived. The District's investment policy requires that District funds be invested in:

- Obligations of the United States Government and/or its agencies and instrumentalities; or
- Money market mutual funds with investment objectives of maintaining a stable net asset value of \$1 per share; or
- Mutual funds rated in one of the three highest categories by a nationally recognized rating agency; or
- Securities issued by a State or local government or any instrumentality or agency thereof, in the United States, and rated in one of the three highest categories by a nationally recognized rating agency; or
- Public funds investment pools rated AAA or AAAm by a nationally recognized rating agency.

3. CASH AND CASH EQUIVALENTS (continued) -

At September 30, 2021, the District held the following cash equivalents:

			Inve	estment Rating
Investment	Fair Value at9/30/2021	Weighted Average Maturity (Days)	Rating	Rating Agency
TexPool	\$ 4,198,152	1	AAAm	Standard & Poors
	\$ 4,198,152			

The Comptroller of Public Accounts is the sole officer and director of the Texas Treasury Safekeeping Trust Company, which is authorized to operate the Texas Local Government Investment Pool ("TexPool"). Although TexPool is not registered with the SEC as an investment company, they operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. These investments are stated at amortized cost in accordance with GASB Statement No. 31. TexPool also has an advisory board to advise on TexPool's investment policy. This board is made up equally of participants and nonparticipants who do not have a business relationship with TexPool. Federated Investors is the investment manager for the pool and manages daily operations of TexPool under a contract with the Comptroller. TexPool's investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

In accordance with GASB Statement No. 79, the external local government investment pool does not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. This pool does not impose any liquidity fees or redemption gates.

Concentration of Credit Risk - In accordance with the District's investment policy, investments in individual securities are to be limited to ensure that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio. As of September 30, 2021, the District did not own any investments in individual securities.

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The government's investment policy requires that the District's deposits be fully insured by FDIC insurance or collateralized with obligations of the United States or its agencies and instrumentalities. As of September 30, 2021, the District's bank deposits were fully covered by FDIC insurance and other pledged collateral.

4. PROPERTY TAXES

Property taxes attach as an enforceable lien on January 1. Taxes are levied on or about October 1, are due on November 1, and are past due the following February 1. The Hays County Appraisal District established appraisal values in accordance with requirements of the Texas Legislature. The District levies taxes based upon the appraised values. The Hays County Tax Assessor Collector bills and collects the District's property taxes. The Board set current tax rates on September 15, 2020.

The property tax rates, established in accordance with state law, were based on 100% of the net assessed valuation of real property within the District on the 2020 tax roll. The tax rate, based on total taxable assessed valuation of \$230,190,477, was \$0.875 on each \$100 valuation and was allocated \$0.150 to the General Fund and \$0.725 to the Debt Service Fund. The maximum allowable maintenance tax of \$1.00 was established by the voters on November 7, 2006.

Property taxes receivable at September 30, 2021 consisted of the following:

				Debt		
	G	General		Service		
	Fund		Fund		Total	
Current year levy	\$	1,033	\$	4,993	\$	6,026
Prior years' levies		<u> </u>				
		1,033	\$	4,993	\$	6,026

The District is prohibited from writing off real property taxes without specific authority from the Texas Legislature.

5. INTERFUND ACCOUNTS

A summary of interfund accounts, which resulted from the time lag between dates that payments are made between funds, is as follows at September 30, 2021:

		Interfund				
	Re	Receivable		Payable		
General Fund:						
Capital Projects Fund	\$	5,768	\$			
Debt Service Fund		1,000				
Debt Service Fund -						
General Fund		=		1,000

General Fund	· ·			5,768		
		6,768	\$	6,768		

6. CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets follows:

	Balance				Balance
	9/30/2020	Additions	Deletions		9/30/2021
Capital assets being depreciated -	<u></u> ;				<u></u> -
Water/Wastewater/Drainage Facilities	\$ 18,789,904	\$4,459,341			\$23,249,245
Total capital assets being depreciated	18,789,904	4,459,341		// <u>#</u>	23,249,245
Less accumulated depreciation for -					
Water/Wastewater/Drainage Facilities	(993,679)	(467,282)		-	(1,460,961)
Total accumulated depreciation	(993,679)	(467,282)		- 4	(1,460,961)
Total capital assets, net	\$ 17,796,225	\$3,992,059	\$		\$21,788,284

7. LONG-TERM DEBT

The following is a summary of bond transactions of the District for the year ended September 30, 2021:

	Unlimited
	Tax Bonds
Bonds payable at September 30, 2020	\$21,945,000
Bonds issued	7,050,000
Bonds retired	(670,000)
Less: Bond premiums and discounts, net of accumulated amortization	(60,697)
Bonds payable at September 30, 2021	\$28,264,303

7. LONG-TERM DEBT (continued) -

Bonds payable at September 30, 2021 were comprised of the following individual issues:

Unlimited Tax Bonds:

\$3,150,000 - 2015 Unlimited Tax Bonds payable serially through the year 2040 at interest rates which range from 1.75 % to 4.00%.

\$3,320,000 - 2016 Unlimited Tax Bonds payable serially through the year 2041 at interest rates which range from 3.00% to 4.25%.

\$5,315,000 - 2017 Unlimited Tax Bonds payable serially through the year 2042 at interest rates which range from 2.00% to 3.50%.

\$4,805,000 - 2018 Unlimited Tax Bonds payable serially through the year 2043 at interest rates which range from 2.70% to 4.00%.

\$4,685,000 - 2019 Unlimited Tax Bonds payable serially through the year 2044 at interest rates which range from 2.00% to 3.00%.

\$7,050,000 - 2020 Unlimited Tax Bonds payable serially through the year 2045 at interest rates which range from 2.00% to 2.375%.

On December 15, 2020, the District issued \$7,050,000 of Unlimited Tax Bonds, Series 2020, with interest rates ranging from 2.00% to 2.375%. The net proceeds of \$6,942,288 (after payment of underwriter fees and other bond related costs), which includes \$447,956 of surplus bond proceeds were deposited with the District's investment accounts to finance water, wastewater and drainage improvements and wastewater treatment plant improvements and to pay for subsequent bond issuance costs.

The annual requirements to amortize all bonded debt at September 30, 2021, including interest, are as follows:

Year Ended					
September 30,	Principal		Interest		 Total
2022	\$	690,000	\$	888,114	\$ 1,578,114
2023		815,000		870,954	1,685,954
2024		835,000		850,554	1,685,554
2025		865,000		827,844	1,692,844
2026		895,000		804,094	1,699,094
2027-2031		5,100,000		3,593,377	8,693,377
2032-2036		6,255,000		2,690,952	8,945,952
2037-2041		7,390,000		1,535,460	8,925,460
2042-2045	_	5,480,000		330,980	 5,810,980
	\$ 2	8,325,000	\$ 1	2,392,329	 40,717,329

7. LONG-TERM DEBT (continued) -

The total amount of bonds approved by the voters of the District, but not issued as of September 30, 2021, are as follows:

Type	Amount			
Unlimited Tax Bonds	\$	(=0		
Refunding Bonds	\$	45,000,000		

At September 30, 2021, \$1,146,055 is available in the Debt Service Fund to service the bonded debt.

8. COMMITMENTS AND CONTINGENCIES

The developers of the land within the District have incurred costs for construction of facilities, as well as costs pertaining to the creation and operation of the District. Claims for reimbursement of construction costs and operational advances will be evaluated upon receipt of adequate supporting documentation and proof of contractual obligation. Such costs may be reimbursable to the developer by the District from proceeds of future District bond issues, subject to approval by the Commission, or from operations. On November 6, 2012, a bond election held within the District approved authorization to issue \$30,000,000 of bonds to fund costs for water, wastewater and drainage system facilities. As of September 30, 2021, the District has issued \$30,000,000 of unlimited tax bonds to reimburse the developer for District construction and creation costs. At September 30, 2021, the District has \$79,207 outstanding in developer advances which were used to fund operating activities of the District.

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a pandemic, which continues to spread throughout the world. While the disruption is expected to be temporary, there is uncertainty around the severity and duration. Therefore, while this issue may negatively impact the District's results of operations and financial position, the related financial impact cannot be reasonably estimated at this time. The District is actively managing its operations to maintain its cash flow and management believes that the District has adequate liquidity.

9. RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has obtained coverage from commercial insurance companies to effectively manage its risk. All risk management activities are accounted for in the General Fund. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered.

10. FUND BALANCES

The District complies with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

- Nonspendable Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.
- Restricted Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.
- <u>Committed</u> Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board. The District had no such amounts.
- Assigned For the General Fund, amounts that are appropriated by the Board that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed. The District had no such amounts.
- <u>Unassigned</u> Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

The detail of the fund balances is included in the Governmental Funds Balance Sheet on page FS-1.

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board may also assign fund balance for a specific purpose.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.
